

gankdat — data catalogue overview

gankdat.com · info@gankdat.com · prepared 2026-09-20 · v0.7.0

gankdat serves official government open data as one clean, filterable JSON API for businesses and AI agents. Eight datasets in two bundles, refreshed daily from the primary source, keyed by the source's stable identifiers, with personal data minimised or dropped at ingest. Delivery: REST (OpenAPI 3.1), a native MCP server for AI agents, and pay-per-request in USDC (x402). Self-serve plans from £5/month; free tier of 250 requests/month.

Datasets

Dataset	What it is	Official source	Licence	Refresh	Records live	Bundle
uk-tenders	UK public procurement notices	Find a Tender (Cabinet Office) OCDS	OGL v3	daily	1,055	bid intelligence
eu-ted	EU procurement notices	TED — Tenders Electronic Daily (EU)	Commission Decision 2011/833/EU	daily	1,000	bid intelligence
uk-planning	UK planning applications	planning.data.gov.uk (MHCLG)	OGL v3	daily	2,000	bid intelligence
uk-sanctions	UK Sanctions List designations	FCDO UK Sanctions List	OGL v3	daily	6,340	counterparty risk
sam-exclusions	US federal exclusions (debarment)	SAM.gov (US GSA) public extract	US public domain	daily	168,482	counterparty risk
uk-insolvency	UK corporate insolvency notices	The Gazette (official public record)	OGL v3	daily	1,000	counterparty risk
uk-companies	New UK company incorporations	Companies House advanced search	Crown copyright	daily	2,000	counterparty risk / leads
uk-food-hygiene	UK food hygiene ratings	Food Standards Agency FHRS national file	OGL v3	daily	613,379	risk & leads

Record counts are as of 2026-09-20. Snapshot datasets (tenders, planning, insolvency, companies) serve the most recent window of notices; register datasets (sanctions, exclusions, food hygiene) serve the full current register.

Delivery & access

Channel	Detail
REST API	GET <a href="https://gankdat.com/v1/data/<dataset>?...">https://gankdat.com/v1/data/<dataset>?... — bearer API key; JSON envelope with paging; every filter documented in the OpenAPI 3.1 spec at https://gankdat.com/openapi.json ; interactive docs at https://gankdat.com/docs .

MCP server	https://gankdat.com/mcp (Streamable HTTP) — one tool per dataset plus <code>list_sources</code> and <code>get_usage</code> ; listed in the official MCP registry as <code>com.gankdat/gankdat</code> .
Pay-per-request	<a href="https://gankdat.com/x402/data/<dataset>">https://gankdat.com/x402/data/<dataset> — x402 protocol, USDC on Base, no account (US\$0.005/request).
Filters	Per-dataset fields (substring match), date ranges (<code>_after/_before</code>), numeric ranges (<code>_min/_max</code>), full-text <code>q</code> , paging up to 100 records per page.
Freshness	Daily refresh at 05:00 UTC from the primary source; every response carries <code>last_refreshed_at</code> ; <code>/v1/health</code> reports per-dataset age.
Custom feeds	Change/diff feeds, filtered exports and additional official datasets on request (info@gankdat.com).

Pricing

Plan	Requests / month	Price
Free	250	£0
grep	1,000	£5
cron	5,000	£23
daemon	20,000	£79
kernel	100,000	£239

Compliance

Sources are official publications under open licences (Open Government Licence v3, Crown copyright, EU reuse decision, US public domain); no scraping. UK GDPR: personal fields are dropped at ingest; sanctions/exclusion lists are served for compliance use under a documented legitimate-interests assessment; privacy policy at <https://gankdat.com/privacy>, per-dataset licence and data posture at <https://gankdat.com/terms>. Provider: sole trader, United Kingdom, trading as gankdat.
