

gankdat — data dictionary

Field-level reference for every dataset, generated from the production schemas on 2026-09-20 (v0.7.0). All fields are returned as JSON; `null` means the source did not publish the value. Filters accept any field name (substring match), `<date field>_after/_before`, `<number field>_min/_max`, and `q` for full-text search.

uk-tenders — UK public procurement notices

Source: Find a Tender (Cabinet Office) OCDS · OGL v3 · refreshed daily · 1,055 records live · 13 fields

Field	Type	Description
ocid	string	
notice_id	string	
title	string null	
description	string null	
buyer	string null	
status	string null	
procurement_method	string null	
category	string null	
cpv_codes	array of strings	
value_amount	number null	
value_currency	string null	
published_at	string null	
deadline_at	string null	

eu-ted — EU procurement notices

Source: TED — Tenders Electronic Daily (EU) · Commission Decision 2011/833/EU · refreshed daily · 1,000 records live · 14 fields

Field	Type	Description
